“
Let's hear what our ***clients say***
about our bid writing services
”

The collaboration with Hudson has been **interestingly fruitful** for Barbara B as we were entering a new market and we needed more insight and somebody who would be able to help us in letting our long experience in the **Italian market emerge in the UK tendering process**. In Hudson we found very **responsive and professional support**, in particular given the difficulties of transferring/translating the value of our Italian Social Cooperative work into the bid writing process: language sometimes can be a limit but we found how **flexibility and creativity helped Hudson to support our business**.

We have had a really **good experience working with Hudson** having utilised their **bid writing and bid review service**. We have found their **level of attention to detail excellent** – Hudson invest time into learning about the business and gaining the information required for a compelling bid, whilst also **bringing their own ideas for a win strategy**.

Tyler Lennox-Gordon

Bid Manager

We have worked with Hudson using their **Tender Writing service multiple times** in the last year and found the **quality of the work produced in the short time frame** we had was **outstanding**. The whole process from start to finish was managed very **professionally** and the result has been our business **winning work because of their service**. Without a doubt we will **continue to work with Hudson Procurement in the future** and based on our own experience **highly recommend them to any business**.

Dennis Scrivens

Managing Director

Our experience with Bid Boost at **Hudson Outsourcing** was excellent. Ajay, the Head of Bid Design, stood out for his **attentiveness and professionalism**. He was consistently **responsive, ensuring that the work delivered was precisely aligned** with our requirements and **completed on time. I highly recommend their services** to other companies seeking **customised bid designs and templates**.

Rebecca Ivory
Bid Writer

The full team was very **thorough, professional**, and personable in the development of a very intensive bid package. We sincerely appreciate the **partnership with Jill** and her team, and would **highly recommend** their services.
